FOR IMMEDIATE RELEASE

West Miller Road Closes for Reconstruction

REPUBLIC, MO - Beginning September 13th, planned improvements necessitates the temporary closure of West Miller Road from West Avenue to Main Street (P Highway). The closure is expected to last approximately 30 days dependent upon the weather and related ground conditions. The detour route is along West Avenue or Main Street to U.S. Highway 60. The 100 and 200 blocks of Miller Road will be widened and improved in conjunction with the adjacent development of the Miller Crossing Subdivision. Although the street will be improved to allow for two-way traffic, the current one way designation will be maintained until such time as the

remainder of Miller Road is reconstructed to handle two way traffic. Questions or comments may be directed to David Brock, Public Works Director, at 732-3400.
