AGENDA ITEM STAFF ANALYSIS

Project/Issue Name: Bill #05-100 an Ordinance Creating the Position of, and Adopting the Job Description for the Deputy Fire Chief over Emergency Management and Fire Prevention for the City of Republic.

Submitted by: Duane Compton, Fire Chief

Date: January 9, 2006

Issue Statement

The City Administration has proposed to merge the Emergency Management Department into a division of the Fire Department.

Discussion and/or Analysis

The current Emergency Management Director, Rick Williams, is retiring at the end of the year. With that in mind, it has been proposed to merge the Emergency Management Department into a division of the Fire Department. This ordinance will create the new job description needed for that position. This is a 2006 budgeted position.

Recommended Action

Fire Chief Duane Compton recommends the Board of Aldermen approve the new job description.
